

# MOTION3

## PRODUCT SPECIFICATION

EFFECTIVE DATE 09.09.2023

ISSUE NUMBER 1

The new Motion3 is our latest generation of equestrian body protection. It combines greater segmentation, innovative multi-foam technology, advanced breathability, and redesigned sizing for a perfect fit. Suits riders after **BETA level 3 protection** and the latest movement and comfort.

The MotionGuard multi-foam construction offers over 120 independent segments, in a slimline design with a ultra soft inner layer, combined with a lightweight outer layer, for maximum freedom of movement and comfort.

Sizes are unisex with over 100 size options covering young riders and adults of all sizes.

- Certified to BETA 2018 standard (level 3) and EN13158:2018
- Lightweight design that doesn't compromise on protection
- Over 120 individually hinged segments
- MotionGuard multi-foam construction
- Added air protection when worn with MotionAir
- Made in the UK
